[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO AUGUST 5.

BY ATLANTIC CABLE.

Russian Intervention Last Year.

NEW YORK, August 5.—A special London dispatch says the letter of Empress Eugenie to the Czar just published in Paris journals alludes to a friendly power which had expressed a desire to intervene in favor of France after the surrender of Sedan. That power was Russia. Emperor Alexander sent a dispatch to the Empress immediately after the surrender of Sedan, offering to intervene on a basis of integrity of territory. Alexander in the same dispatch informed the Empress that he had earnestly recommended the King of Prussia to open negotiations for peace, and not to insist on the cession of French territory, as disintegration of France would be dangerous to the peace of Europe. Hopes of Russian intervention were however spoiled by the outbreak of the revolution September 4th, and the flight of the Empress, which took place a few hours after the dispatch had been received from Emperor Alexander. Hearing the news that a Republic had been proclaimed, Emperor Alexander withdrew his proffered intervention, and notified the King of Prussia that Russia would remain neutral. Jules Favre and all former members of the Government of September 4th, knew of the existence of the dispatch. It is said it had been found after the flight of the Empress, among papers of the Emperor, but withheld from publication by the Government of National Defence. The revelations are apparently to be made public with the consent of Empress Eugenie. Republicans—chiefly Jules Favre and his former colleagues—will probably deny the proposed intervention of the Czar, but the truth is the facts related can be completely established.

The French Assembly.

VERSAILLES, August 4.—In the Assembly today the committee made a report recommending the State to assume the burdens of the provinces which were invaded by Germans. Thiers, to the surprise of many of the Deputies, and amid excitement, spoke in terms of vigorous opposition to the report. He said the amount of claims which it would impose on the Republic could not possibly be less than one milliard francs, a sum which France was quite unable to pay. He would give a plan, if the committee was willing, which would afford relief to the people of the invaded Departments, who were actually in need.

It is said the question of prolongation of the powers of Thiers as Chief Executive will be allowed to go by default.

Siege of Paris will be raised on the 15th.

Government will soon introduce in the Assembly bills against the International Society.

Dispatch from London.

LONDON, August 4.—In the House of Commons this evening, Sir Charles Bowier Adderley, member for North Staffordshire, made a speech in denunciation of the Treaty of Washington. He said in that instrument England had made a vast concession in favor of peace upon the question of fisheries, though England was clearly in the right in the former attitude she formerly held upon these subjects, and yet that position had been conceded and America indemnified. Sir Charles continued, vigorously condemning the form of arbitration provided for in the treaty.

Sir Roundell Palmer, member for Richmond, followed, in defence of the treaty.

WASHINGTON CITY.

Miscellaneous News.

WASHINGTON, August 5.—The claim of the New Idria Company for a patent to the Panoche Grande Rancho was decided adversely, partly because the proofs were defective, and it has been suggested that they could go on and perfect proofs; but now it turns out, on seemingly responsible information, that the principal stockholders of the company are foreigners. This being true, no ruling which requires proof of citizenship of corporators—the legality and pertinence of which ruling is undoubted—comes just in good time to save, as the law is designed to prevent valuable mineral lands from falling into the hands of foreign speculators who would work them, perhaps, against the interest of the Government.

The record of steamboat boiler explosions, kept in the office of the Supervising Inspector, in the Treasury Department at Washington, shows that there were more lives lost by the Westfield disaster than by all the steamboat explosions that have occurred in the two past years.

The President has appointed Matthew McDougall to be United States Consul at Dundee, Scotland.

EASTERN STATES.

Republican Triumph in North Carolina.

RALEIGH, N. C., August 4.—Returns from Wake, Halifax and Mecklenberg counties, show a Republican gain of 1,603 over the vote of last August. Rockingham county gives 92 majority for the Convention, a Republican gain of 355. New Hanover county shows a large Republican, and Anson and Warren counties small Conservative gains. Columbus county votes for a Convention by a small majority.

The New York Tribune has a dispatch from J. C. Abbott, Wilmington, N. C., saying: "We have carried the State against the Convention by from 10,000 to 15,000 majority."

Washington specials say the returns received by the National Republican Executive Committee indicate the positive defeat of the Convention party, and the consequent triumph of the Republicans.

The Tammany Thieves.

NEW YORK, August 4.—The following will be published to-morrow:

To Wm. E. Dodge, President of Commerce, or Hon. Geo. Opdyke, Vice President:—In view of the gross allegations made by partisan journals in relation to accounts of the city and county of New York, the expenditures of public moneys—public debt and the city's resources, the undersigned respectfully request the Chamber of Commerce to appoint a large auditing committee, of known and upright citizens, to make a full examination of public accounts and the condition of the public debt, then to report the result when completed to the people of the city. The accounts will be published at an early day, but it is the earnest desire of the undersigned that the original accounts and vouchers be at once examined. The undersigned will be obliged, in case there be no regular meeting of the Chamber within a few days, if a special meeting could be convened expressly for the purpose indicated. The undersigned make the proposition irrespective of our own political considerations, and because of the assault on the city credit. It appeals to you because your body is composed of nonpartisan and commercial gentlemen. Signed—A. Oakley Hall, Mayor, Richard B. Connelly, Comptroller.

The frauds in the city government continue to be discussed in every social and political circle with unabated interest. In some of the city clubs Democratic and Republican members alike condemn the conduct of the Tammany Ring. At the Union Club rooms threats were made openly, by prominent members, to take such a course as may relieve the club from the odium which might attach from continued membership of those whose peculations are suspected—officers of the Tammany Association being members of the club.

The Sunday Law in Cincinnati.

CINCINNATI, August 4.—After a long discussion in the Board of Councilmen to-day a vote was reached on the repeal of the Sunday ordinance—26 votes in favor, and 10 against. It will have to pass the Board of Aldermen before becoming a law. It will come up next Wednesday.

Miscellaneous Items.

MILWAUKIE, August 4.—A revenue cutter has gone to Beaver Island to protect the U. S. Marshal, who was resisted by the Sheriff and a mob in the discharge of his duties.

NEW YORK, August 4.—The funeral of Phoebe Carey took place this afternoon. The services were conducted by Rev. S. A. G. Lawrence, of Erie, and Bayard Peters, of Williamsburg. Horace Greeley, Oliver Johnson and O. J. Victor, were pall bearers.

The Evening Mail says that Charles Francis Adams declines the position of U. S. Arbitrator to Geneva, and that Senator Frelinghuysen and other prominent New Jersey politicians are urging William Walter Phillips of that State for the place.

CANADA.

Filibusters for Cuba Arrested.

MONTREAL, August 5.—Enlistments for Cuba constitute the excitement of the hour, especially since the sudden check administered to leading promoters of the enterprise. Yesterday two Quebec filibusters, named Genereux and Martineau, poached on their comrade filibusters of Montreal and the Spanish Consulate at Quebec. On their information Judge Dourst forthwith issued warrants at Quebec for the apprehension of Maj. William J. Robinson and James L. Starnes, both members of the Prince of Wales Rifles here. The cases were before the Police Court. Starnes was held for further evidence, and Maj. Robinson was admitted to bail for his appearance and examination by Judge Coursol.

WEST INDIES.

Arms for the Cubans.

NEW YORK, August 5.—Information is received of the safe arrival in the hands of patriots, of another large quantity of arms and ammunition at Cuba. The vessel left a neighboring port on the 15th, and was safely delivered in Cuba on the 26th ult. The cargo consisted of 1,000 Springfield and Remington rifles, 15,000 metallic cartridges, two tons of powder, half a ton of sulphur, 790,000 percussion caps, 200 hand grenades, 200 machetes, and two twelve-pounder field pieces. The expedition was in charge of Don Melchior Aguero.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, August 5.—The following is a complete list of the Democratic nominations made last night: Treasurer, Otto Kloppenberg, renominated; Assessor, Levy Fosquer, renominated; District Attorney, Harry H. Byrne, renominated; Coroner, John Letterman, renominated; Fire Commissioner, J. J. Kenny; Harbor Master, Thomas H. Barbee; Surveyor, William H. Humphreys.

There were sixty deaths in this city last week.

Burglars are becoming unusually active.

The steamer Oriflamme, from Portland, due this morning, has not yet arrived.

There is much loose talk in the streets about a possible riot on the occasion of the Italian demonstration, in honor of the occupation of Rome, as the capitol of Italy, to-morrow. So far as can be learned there is no organization which will countenance a riot in any shape; on the contrary, all the Irish organizations, civil and military, will throw their whole influence the other way. Some two weeks since, Col. Barnes received an anonymous letter cautioning him against attempting to protect Italians by military force, and threatening him with consequences if he did so. Similar letters were sent to other parties, but they are believed to emanate solely from irresponsible individuals, and there is no probability of the writers attempting to carry out their threats. Nevertheless, the Italians will be prepared for contingencies, and their escort will not waste their strength packing around blank cartridges. The police, regular and special, will be on duty by order of Chief Crowley, and there is every probability that the day will be one of the most orderly seen here for years.

INTERIOR CALIFORNIA DISPATCHES.

From Yosemite.

YOSEMITE, August 5.—Yesterday, J. M. Hutchinson's new stage, the Pioneer, was packed down the mountains on mules, and made its first trip up the valley, arriving in front of the hotel. The advent of so useful a visitor was welcomed by prolonged cheers and firing of guns. It is an event in the history of progress here. Horseback riding on the Harding route is reduced to seven miles, and by continuing in carriages to the end of the road overlooking the mountains it is only four miles.

OREGON.

The town of Halsey is building up rapidly.

Three hundred and fifty children attend the Salem public schools.

Two Albany men had a race to Ochoco lately to buy wagon road stock. One passed the other while he slept, and got the prize.

The basement of the new penitentiary is completed and the walls are up about eight feet above the first floor. The building will require 1,500,000 bricks.

From the Corvallis Gazette: While surveying in the Klamath Lake country, Mr. Mercer and party came to a most remarkable spring, about twenty-five rods in width and one-quarter of a mile in length. It bursts forth from the base of a mountain, ice-cold and clear as a crystal, and affords about three times the volume of water that is found in Mary's river at the bridge south of this place. It intersects Williamson's river, a warm, turbid stream, about one and a half of two miles below, and entirely changes the character of that stream to that of clear, cold and beautiful, in which trout from twelve to sixteen inches in length are plainly visible several yards distant.

The Corvallis Gazette gets the following items from George Mercer, who has just completed a survey of the boundary of the Klamath Lake Reservation, and a partial subdivision of the same. The Reservation is about fifty miles square, and lies on the eastern shore of Middle Klamath Lake, and extends up Sprague's river about eighteen miles above the Yainax Agency, and north to include the upper lake or marsh. The general appearance of the country, except a few valleys, is sterile and uninviting, and mostly covered with pumice stone. The country is rolling, the hills neither high nor abrupt, and generally covered by a fine growth of pine timber, free from underbrush. The Reservation is well adapted to the Indians, so far as procuring a living from roots, fish, game, etc., is concerned, but not well adapted for carrying out the present policy of the Indian Department. The country abounds with fine springs. The one at the Agency runs a saw mill and supplies an irrigating ditch, and furnishes besides an immense amount of surplus water, a portion of which they propose to use as motive power for a grist mill now in process of erection. As a farming country, the Klamath Lake region is not a success.

PERSONAL NOTES.

President Grant has abandoned the idea of visiting the Pacific coast this year. He will not come even to California.

Governor Hoffman, of New York, has acknowledged with thanks a letter from Lewis W. Clark, Chairman of the Democratic State Committee, thanking him in behalf of the Democracy of New Hampshire, for protecting the Orange parade in New York.

A recent dispatch announces the death of John Slidell at London, at the age of 78. J. M. Mason, his companion on board the Trent when Commodore Wilkes acted with such intrepidity in making their arrest, died in Virginia about three months ago.

C. E. Pickett, an ex-editor and one of the bedrock, non-departing Democrats of California, has written a letter to the Alta, in which he exposes the illogical tendency of the "new departure," declares he won't vote the ticket and predicts that the Republicans will carry the State.

Rev. Myron Eells, a young man of Oregon nativity and education, son of Rev. Cushing Eells, of Walla Walla, arrived by steamer yesterday from the East. For the last three years he has been at Hartford, finishing his theological education. His collegiate education was obtained at Forest Grove. He is a young man of good talents, steady perseverance and laborious industry. We presume he will enter upon the ministerial duties soon, though we do not know in what locality.

The London Times correspondent tells of a recent whirlwind in India that carried trees and herds high into the air, and dashing them to the ground a mile or so away, killed everything that possessed life.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

BY ATLANTIC CABLE.

The French Assembly.

VERSAILLES, August 5.—In Assembly to-day the Bill to impose a tax on the incomes of natives and resident foreigners came up, and gave rise to an animated debate. No action was taken.

The Assembly also considered the Bill to indemnify citizens for the loss of property during the German invasion.

Thiers spoke several times, and was frequently interrupted. He was visibly affected, and bitterly reproached the members. He declared that he was willing to relieve, but not to indemnify those who had suffered during the war. Without disposing of the Bill the Chamber adjourned until Tuesday.

WASHINGTON CITY.

Miscellaneous.

WASHINGTON, August 5.—Private advices indicate that the reported change in the Internal Revenue Commissionership is likely to occur within a few days, but no selection for successor to Commissioner Pleasanton has been appointed.

Urgent recommendations have been received from influential parties, in the West and border Southern States, in behalf of Col. Gooch for the Commissionership.

The Ku Klux investigating committee to-day concluded the examination of witnesses in attendance, and took a recess until the 20th of September. Among the latest witnesses was Lieut. Geo. B. Rickett, 16th United States Infantry, who was for some time in command of a detachment of troops in Pantotoc and Munroe counties, Mississippi. He testified that Ku Klux existed in five of the north-east counties of Mississippi, and on the borders of Alabama, to which he believed it was confined. An informer stated that the purpose of the Ku Klux was to intimidate colored voters, and drive out Northern men from their section. Within the knowledge of the witness they had murdered no negroes in Monroe county in the four months he had been stationed there. He believed the presence of troops had a good effect on that vicinity.

EASTERN STATES.

The "Westfield" Investigation.

NEW YORK, August 5.—In the Westfield investigation, R. H. Thurston, Prof. of Mechanics and Engineering, in the Institute of Hoboken, accounted for the explosion by internal grooving caused by oxidation of iron.

Robert Crasson, fireman, who escaped, testified that they tried the water-cocks and found them all right, and then closed the furnace door, (the fire being an ordinary one,) when he noticed the steam bursting out and ran for his life. The witness was cross examined with a view of ascertaining whether any drink was kept on board for use of himself and crew. He said that men coming across on the ferry boat with a load of wood sometimes tap a keg for themselves, and they would occasionally give some to the crew.

Chas. W. Copeland said he was a mechanical engineer, and said in his mind the cause of the explosion was perfectly plain. In fact the impression was that it was no explosion at all. He said from examination he made, the pressure was too much for the strength of the boiler. In his opinion, neither engineer nor inspector was to blame. He stated that the explosion originated in cracks that the Inspector could not see. The cracks on the lower part of the boiler and the other side was equally disguised from his observation during inspection. The witness said he had been acquainted with the engineer for thirty years and he knew him to be an excellent mechanic and an expert engineer. Investigation was adjourned till Monday.

North Carolina Election.

WILMINGTON, August 5.—Indications are more favorable to-day for the defeat of the Convention by a very small majority. The Republicans claim the State by five to fifteen thousand majority, while the Conservatives still think the State doubtful, with chances in their favor. Returns have been received from only about one-third of the counties, and they are not official.

MEXICO.

The Presidential Election.

CITY OF MEXICO, via HAVANA, August 5.—A Permanent Deputation of Congress finished counting the electoral vote for President on the 27th. The following is the result of the vote: Diaz, 1,982; Juarez, 2,063; Lerdo, 1,367. There being no choice, according to the Constitution, the election goes to Congress, where, if the coalition of opponents to Juarez is effected the majority will be against him. An attempt will be made to unite the vote of the opposition on Diaz. The Permanent Deputation is known to be hostile to Juarez. On the other hand, the Diario, the official organ of the Government, declares that Juarez has a majority over all his competitors in this conflict. With such direct contradiction in the statements, it is impossible as yet to tell who is actually elected.

The States of Puebla, Oaxaca and San Luis Potosi threaten revolt, and the prospects of the country are gloomy. A revolution has begun in Tobas.

The Voz de Mexico has a bitter article against the Protestants. It points to the appearance of certain crimes as coincident with the introduction of the evils produced by the religious divisions.

The same journal calls for the restriction of suffrage.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, August 6.—The Republican County Nominating Committee last night nominated the following ticket for Assembly: David Meeker, T. B. Shannon, Giles H. Gray, Geo. McDonald, A. D. Splivalo, M. C. Blake, Charles Jost, W. T. James, Samuel McCullough, H. L. Reed, Charles Goodall, and W. A. Aldridge.

SAN FRANCISCO, August 6.—The city this morning presented a thoroughly gala appearance—the Italian flag being displayed from many public and private buildings in all parts of the city, and some of the vessels in the harbor. There was also an unusual display of American flags, and many German and other nationalities. The day was surpassingly beautiful, and a great number of people were out to witness the display. There was a noticeable absence among the crowd on the sidewalks of the element from which any trouble would be likely to come if there were any, and more than usual good order and quiet prevailed. At the junction of Market and Kearney streets, where the procession formed, the crowd of spectators were very large, but not a cheer, hiss or other demonstration of any kind betrayed the least feeling for or against the affair. The same order and quiet prevailed along the entire line of march. At 11½ in the forenoon the procession moved down Kearney street, and was just half an hour in passing a given point, marching quite rapidly and in fine order, being most admirably marshalled. Many larger processions have been seen in San Francisco, but none more brilliant, characterized by most admirable taste in all appointments. There were no inscriptions which could in any manner offend the religious sentiment of any portion of the community and no allusion to the Pope or the Papal question was visible. The American and Italian flags were carried side by side throughout the entire procession. The car of liberty in which rode young ladies tastefully dressed in the national colors, representing the different Italian States, was very elegant and artistic, and was followed by a car surmounted by the bust of Washington. The full rigged, manned and armed felucca and the car representing Rome, surmounted by the traditional wolf suckling Romulus and Romus, with representatives of the army and national guard fully armed, by an erect pillar, were noticeable features in the procession. Everybody accords the highest praise to the Italians for their good taste, patriotism and careful abstention from anything calculated to wound the feelings of others or provoke disturbance, though evidently fully prepared for one should it occur. Both sides displayed self-respect and forbearance in the highest degree creditable.

SAN FRANCISCO, August 6.—The literary portion of the Italian celebration passed off as quietly as did the procession. We have not seen a more quiet day and evening here for many years. Not an arrest to-day. No accident or incident of any importance during the day.

Work has been going on at the Pavilion all day and still a great deal to do to get things in readiness for the opening of the Fair on Tuesday. Horace D. Dunn, who went over to Japan and China to induce contributions to the fair has, through some disagreement, drawn out of the management, but the oriental contributions, which will be a marked feature, will be exhibited, as first intended.

INTERIOR CALIFORNIA DISPATCHES.

SONORA, August 6.—The Republicans of Sonora and vicinity held a large and enthusiastic meeting in Turn Verein hall last evening. They were addressed by T. G. Phelps and J. F. Swift.

RED BLUFF, August 6.—Booth and Eastman spoke here last night to the largest and most enthusiastic crowd of ladies and gentlemen ever assembled in a political discussion in Tehama Co.

SAN DIEGO, August 6.—The Democratic County Convention adjourned last night after being in session for two days. A full county ticket was nominated with the exception of Public Administrator. The county carried off every office but Treasurer, County Judge and District Attorney, which were given to this town. New San Diego was thrown out entirely in the distribution. It was offered the Public Administrator, but indignantly declined. The general impression is that the ticket is very weak and that the Republicans have it in their power to carry the county.

VISALIA, August 5.—The Democrats held a ratification meeting here last night, which was largely attended but exhibited a marked lack of enthusiasm. Judge Archer, Robert Ferral and others addressed the meeting.

VISALIA, August 6.—The Republicans of Visalia held a large ratification meeting here last evening. The principal business houses were brilliantly illuminated and bonfires blazed the full length of Main street. General Ord and staff were among the audience.

NEVADA.

Man Killed.

HAMILTON, August 6.—A Cornishman named Joseph Knight was instantly killed this morning in the South Aurora mine, Treasure Hill, by being struck with loose rock while descending a chute.

The Daily Oregonian.

MONDAY MORNING, AUGUST 7, 1871.

The "New York Times."

The *Bulletin* of Saturday had an article on the *Times* and Tammany, in which it mentioned that the *Times* during ten years received a total of $94,715 for corporation advertising, and has a disputed claim for $13,764 more. Further, the *Bulletin* quotes from the Tammany organ, the New York *Leader*, that "during the years the *Times* received the advertising patronage it defended the city government." To this the *Bulletin* adds:

As the *Times* is a Republican organ and the City Government is Democratic the exhibit and facts as stated are damaging to the character of the *Times* for integrity; but it does not in any way help the case of the City Government, for if Tammany threw this rich sop to a Republican organ to keep it from exposing the maladministration of that chief power in the city, the argument holds good that the briber is as culpable as the bribed, and thus Tammany stands no better than the *Times*. It is bad business all around.

The *Bulletin*, we are sure, has fallen into an error in regard to the *Times*. That paper has never been a defender of Tammany, but always its open, implacable foe. For many years we have received it daily, and have read it more than any other Eastern journal; and we have always found it an enemy of the Tammany ring. It is true the ring for a time gave it a large amount of advertising, doubtless in the hope of gaining its favor; and it declares that it could have that advertising yet, and four times as much more, if it would only grant a truce to the Tammany thieves. Of the advertising it further says:

We once, in the usual course of business, published advertisements for the city, for which the ordinary and proper rates were charged, and for which therefore we were entitled to be paid, as much as any of our workmen are entitled to be paid for the labor they perform for us. We compelled the authorities to pay our bill, as all business men would have done in our place. That is all there is of these transactions.

There is nothing here to bring the *Times* into discredit. It is not asserted that it charged more for the advertising than its usual rates. Even those who assail the *Times* on this score do not say that its bill was exorbitant for the work done. It was a simple business transaction.

Meanwhile the *Times* goes on with its damaging exposures. It challenges the officials to show that a single item in the accounts it is publishing is inaccurate. Again and again it calls the Mayor, the Controller and others "thieves" and "swindlers," and challenges them to bring an action for libel. It says, however, that they will not bring such an action, "because they dare not take any course which will compel them to produce the whole of the Controller's accounts." It strikes us that the *Times* is fully and triumphantly maintaining its position.

A Calcium Blaze on the "New Departure."

The *Herald*, in a recent article proffered the information that "at the rate the Radical party is now abnegating its dogmas, it will stand, during the next Presidential canvass, upon a tolerably good Democratic platform." This, from a Democratic paper which has just taken the "new departure," is a descent to a degree of coolness far, very far, below zero. The *Herald* has joined in a political movement which is condemned by nine-tenths of its brethren of the Democratic press—a total and shameful abjuration of all the essential principles of the Democratic party; yet it has the effrontery to claim that it is immovable and that its opponents are coming over to its position! This folly fitly follows the dishonesty of the "new departure" which the *Herald* has taken.

It will be in order to quote the Eugene *Guard*, a Democratic paper of acknowledged standing, against the *Herald's* pretensions. Alluding to that paper's attempt to change its principles in order to follow as closely as possible after the Republicans, and to occupy their recently abandoned camps, in the hope of making the people believe that the Democratic party is so nearly like the Republican that there is little or no difference between them, the *Guard* says:

Let knaves and demagogues carry forward their designs by fraud, intrigue and hypocrisy. * * * When this new departure was broached success seemed inevitable, and the most hopeful Republicans looked despairingly on the coming Presidential contest. But if it brings defeat, and its adoption certainly will, it will not be the first time that victory has been snatched from our grasp by scheming policy mongers who judged the people by their own dishonest hearts.

The *Guard* then asks the *Herald* these pointed questions:

If the Fourteenth and Fifteenth Amendments are wrong in principle, do you propose to teach the people that fact by acknowledging them to be right and pledging the Democratic party to their strict enforcement? If they are in reality a part of the Constitution, do you expect to procure their repeal by ceasing to make them political questions and acquiescing in their permanent establishment? If our leaders desert their principles for the sake of office, will they not continue that desertion for the sake of retaining it? And, finally, do you propose to overcome your enemies by joining in with them and fighting their battles?

This is so dreadful an excoriation that we cannot get our consent to add anything to it. It sheds, furthermore, a calcium blaze on the "new departure," and illuminates it so that we venture to say that even the *Herald* will get new light upon it. Meantime that paper would do well not to bother about the "Radicals abnegating their principles," but try to see what a predicament itself is in.

Probably the most remarkable instance of longevity in America is that of Jacob Fournais, who in 1814, while Pittsburg was still a village on the verge of civilization, went to that place and after a brief sojourn there went down the river to New Orleans. This man was then over seventy years old. He died at Kansas City, Missouri, on the 15th July,—three weeks ago,—at the age of one hundred and thirty-four years! He was never sick, and only a few minutes before he died was walking about the town. He said to the family in the morning that he would "never see the sun go down again," and just before sunset the machine stopped and the old man was dead. He was a Canadian Frenchman by birth, and in 1759, when Wolfe was killed on the Heights of Abraham, he was working on a piece of land that he owned near Quebec, and was then a full grown man. He was refused permission to enter the service under Gen. Jackson at New Orleans in 1815, on the ground that he was "too old," a circumstance which he often related with great glee.

We wish we could find room for the utterances of the Eastern press on the disclosures of the prodigious frauds perpetrated by the leaders of the Democratic party of the United States—the Tammany gang. The revelations are producing an immense sensation, and every newspaper is full of it. We give one extract from the Albany (N. Y.) *Journal*: "No wonder that every member of the Tammany Ring should grow rich. No wonder that the Ring should be able to control Conventions, to dictate nominations, and to prescribe party policy. No wonder that close Assembly and Senatorial districts should be carried for the candidates whom they have selected, or that, with their immense corruption fund, they should be able to purchase poor shoats like the infamous Winans!"

In an article entitled "More Radical Thievery," the *Herald* makes allusion to the management of the Portland Custom House. If the editor of that paper means to insinuate that the business of the Portland Custom House is conducted in a corrupt and extravagant way, without due regard for the public interests, or the public money is in any respect improperly used or unnecessarily expended, he is a slanderer and a liar. The collections at this port since the Custom House was established here, amount to nearly two hundred thousand dollars, mostly coin, and the total expenses of collection, including pay of employes, rent, furniture and fitting up, have been less than eleven thousand dollars in currency. The *Herald's* party has just been convicted of stealing millions on millions in New York, and has been forced to confess it. Better attend to that.

A thieving operation on the part of the Democrats of California, resorted to for the purpose of raising funds, has been brought to light. They have employed a great many men to work on the public buildings at Sacramento, and it is directly proven by the affidavits of a large number of these men that the managers engaged them at the rate of $2.12 a day, but drew from the Treasury $4.35 a day and pocketed the difference! This is following closely after the tactics of Tammany, whereby several millions are drawn out of the Treasury ostensibly for a job of repairs on the public buildings, and nine-tenths of it distributed among the thieves of the ring. Your Democratic managers are much the same everywhere.

THE TERRITORIES.

The Washington Territory Legislature will meet on the 2d October.

The Vancouver *Register* has a new dress, which gives it a much more handsome appearance.

The amount of land disposed of at the Vancouver Land Office during July was 4,393 acres.

Another seizure of 800,000 feet of saw-logs has been made at Puget Sound. The logs were cut on Government land.

The body of Robert Rockett, who was drowned in the Washougal two months ago, was found on the 30th July and buried.

A few days ago a man named Sylvester Clark, in Chehalis county, W. T., was killed by a tree falling on him. He leaves a wife at Brownsville, Oregon.

TUALATIN PLAINS, WASHINGTON CO., OREGON, July 22, 1871.

DR. A. M. LORYEA—I have been troubled with Rheumatism for the past *twelve years*, my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a LARGE BONY SWELLING grew out, so that I could not raise my hand to my head. Since last spring I have been taking your "Unk Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and THE BONY GROWTH HAS ENTIRELY DISAPPEARED and I use my limbs and am far better than I have been for years.

Biliousness and Indigestion.
These two complaints are more general at this season of the year than at almost any other. They are closely akin; for biliousness always involves an impaired digestion, and indigestion is necessarily an accompaniment of a disordered or torpid liver. Happy the man or woman who can boast of a stomach that has never felt the horrors of dyspepsia, and to whom that great secretive agent, the liver, has never given pain or trouble. Not one in a thousand can lay claim to entire immunity from irregularity in these organs. How, then, shall they be regulated? Not by powerful cathartics, alternated with ordinary stimulants, but by a medicinal invigorant, like Hostetter's Stomach Bitters, which combine in due proportion the tonic and the alterative principle. Wherever there is a church, a schoolhouse, and a general store, this famous medicine may be procured. No village merchant finds it prudent to be without it, for it is enquired for every day by every class. The workingman buys it because it increases his capacity for toil and is followed by no reaction. The effect of the salubrious roots, herbs, etc., of which it is composed, diffused through his system by the pure stimulant which form the basis of the Bitters, is most healthful and invigorating. The scholar, the merchant, and, in fact, all men, whose minds or bodies, or both, are in constant exercise will derive benefit from its use. To persons of sedentary habits it supplies, in some measure, that activity in the circulation which is obtained by physical exertion, and is the best known remedy for constipation.
Ask for Hostetter's Stomach Bitters, and do not be coaxed into purchasing any of the imitations and frauds sometimes offered in its stead.

CHANGE OF PROPRIETORSHIP.
H. H. PEARSON,
Late of the Russ House,
HAVING BOUGHT THE INTEREST OF MESSRS. Tibbs & Patten, of the Cosmopolitan Hotel, has secured a lease for a term of years of this well known and elegantly furnished Hotel. His previous reputation assures its being kept in first class style, while in order to keep pace with the times he intends to make important reductions in the scale of charges. His intention is to make it a family and business house, while his large connection with the traveling public, warrants him in expecting a large amount of country, Pacific Coast and Eastern patronage. The prices will range from two to three dollars a day for ordinary accommodation. Board by the week or month as per contract. The Table will be kept on the most liberal scale and many improvements introduced. The spacious reading room is the finest of its kind in the city, while the furniture and fittings generally are superior to those of any hotel in San Francisco. The house will be thoroughly overhauled. Mr. PEARSON assumes proprietorship this day, August 1st. au7d2m2p

We Challenge the World to Produce its Equal!
We particularly and cordially invite the Teachers and Musicians of Portland to CALL AND EXAMINE this instrument. It will amply repay for the trouble.
We sell these instruments for cash, less than any other first-class instrument in the country can be sold for. Also take instruments of any other make that does not give satisfaction (after bearing the Burdett) in exchange, or will rent them and apply the rent to the purchase.

TO HOUSE BUILDERS & PAINTERS
"AVERILL CHEMICAL PAINTS."
THESE PAINTS ARE SO WELL KNOWN throughout the Atlantic States and their reputation so abundantly established for
Beauty, Permanence and Economy
That we can confidently recommend and guarantee an entire satisfaction in their use.
THEIR COST is less than pure leads, and covers one fifth more surface, making them the most economical Paints in the market.
THEIR DURABILITY is unquestioned. They dry hard with a smooth and glossy surface and will not chalk, crack or peel off.
THEIR ADAPTABILITY.—They are already mixed and ready for use and require no oil, turpentine or dryers. Are sold of any desired shade, by the gallon only.
Testimonials:
Gen. James S. Negley, M. C., Pittsburg, Pa., writes Nov. 16, '70: I have no hesitation in recommending the "Averill Chemical Paints" to those who regard economy and durability. It weathers our smoky atmosphere better than any Paints I have tested. The colors are rich and variable. Altogether I find them the CHEAPEST AND BEST."
"JACKSONVILLE, FLORIDA CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any LEAD AND OIL CAN EQUAL IT.
WM. P. DOCKRAY."
I have carefully compared the cost and merits of the Averill Paints with White Lead and Oil and find 90 cents per gallon in favor of the former.

CITY.

THE EPISCOPAL CHURCH IN OREGON.—The *Oregon Churchman* has an article on "The History of the Protestant Episcopal Church in Oregon and Washington Territory," from which we take the subjoined extracts: "The first notice we find of Oregon by the Board of Missions, was in the April number of the *Spirit of Missions*, in the year 1850. But it was not until the next year that any definite steps were taken to send a Missionary to this distant field. In April, 1851, the Rev. William Richmond, of the Diocese of New York, was appointed as the first Missionary to Oregon. Quite an enthusiastic meeting was held in the Church of St. Bartholomew, New York, on the eve of his departure to the distant mission. * * * The Rev. Mr. Richmond arrived in Portland on the morning of Sunday, the 11th of May, 1851, but as there was no place provided for worship, he did not officiate until the following Sunday (May 18th,) when, together with the Rev. St. Michael Fackler, he held services in the Methodist house of worship, and baptized the infant daughter of Mr. Fackler. He also presided at the election of wardens and vestrymen, and the organization of Trinity Church. This was the first Episcopal Church organized in the Territory. * * * The year 1851 was spent by the Revs. Messrs. Richmond and Fackler, in ministering at different points, and in organizing parishes. From a letter of Mr. Richmond's to the Board of Missions, June 23d, we learn that they had organized congregations at Portland, Oregon City, and in Marion and Yamhill counties. At what point, in those counties, he does not state. Probably they were at Salem and La Fayette. They also held occasional services at Cathalmet, Milwaukie and Dayton. At Dayton and La Fayette Mr. Richmond spent a large portion of his time, as he had taken up a "claim" in that neighborhood. * * * On the 10th of December we find Messrs. Fackler and Richmond at Milwaukie. They organized a parish, chose two wardens, eight vestrymen, and called the Church St. John's. Mr. Lot Whitcomb, the proprietor of the town, gave the vestry, as trustees until incorporated, two eligible lots, and a building that cost him about $1,000 for an Episcopal Church edifice in Oregon. * * * In the spring of 1852 Mr. Richmond made a visit to the Tualatin Plains, held services at the residence of Mr. Charles Mackey's, and baptised seven children. * * * The same year, Mr. Robert Newell gave the Church a small building at Champoeg, in which services were held. In 1861 this little church building was carried down the river during the great flood. As the whole town was washed away, no attempt was made to build a church or hold service there since. The bell was saved, and is now in the Church of the Incarnation at Butteville."

REAL ESTATE BUSINESS.—The Sunday *Bulletin* says: "The real estate business was more active in this city yesterday than for many weeks past. Messrs. Russell, Ferry & Woodward disposed of considerable at public auction, besides negotiating one or two important city sales. Messrs. Parrish, Atkinson & Woodward concluded one negotiation of city property at $6,000, and another at $2,200. Messrs. Stitzel & Upton sold several lots upon Holladay's Addition at ruling figures, and one farm upon the Columbia river at $8,000 cash. This last sale was to a gentleman just arrived from Milwaukee, Wisconsin. Messrs. DeLashmutt, Burch & Merrick have several fine bargains on their books, and were doing an active business yesterday. Messrs. Conklin, Risley & Co., had many calls, and a few transactions were closed."

ST. HELENS HALL SCHOOL.—We have received the annual catalogue of this school, from which we learn that the pupils in attendance during the year ending July, 1871, numbered 179, including three who attended for music lessons only. The next term will commence September 5th, and continue till January 31st, with a vacation from Dec. 23d to Jan. 1st inclusive. The following is the board of teachers: The Right Rev. B. Wistar Morris, Rector; Miss Mary B. Rodney, Principal; Miss Lydia Rodney, Miss Annie Atkinson, Miss Catherine C. H. Burton, Miss Blackler, Miss L. Robson, Assistant Teachers; the Rev. John Rosenberg, B. A., teacher of French; Miss Clementina Rodney, Miss Anna Reed, and Miss Lindsley, teachers of Music; Mr. Edward T. Coleman, teacher of Drawing and painting.

FARM LABORERS WANTED.—C. W. Dean, Esq., of the firm of Dean, Brother & Fisher, real estate dealers, returned yesterday from an extended tour through Clackamas and Marion counties. He reports that farmers are busily engaged in harvesting, but there is a general complaint of scarcity of farm hands. Farmers are offering good pay and are still unable to obtain all the help required.

SOREHEADS FROM "CUCUMBERS."—The local reporter of the *Bulletin* consoles himself and the rest of us, thusly: "It may not be generally known—but such is the fact—that this year Oregon has experienced a drouth. We like it all the better for this. It has proven that grain comes in good even in dry seasons." This fact may be genuine consolation, but if so, it is mighty *thin*.

INCREASED TRADE.—"The best evidence," says the Vancouver *Register*, "of the rapidity with which Clarke county is settling up, is to be found in the increased trade between Vancouver and Portland. A prominent merchant remarked a few days since that he thought a comparison of his books would show an increase of fifty per cent. in the last twelve months."

BOARD OF DELEGATES.—There being no quorum Saturday evening, the Board transacted no business. The following members were present: Messrs. W. H. Wetsell, Secretary; A. G. Walling, P. D. W. Hardenburg, E. D. Backenstos, J. H. Lyon, Thomas Moffett and A. A. Williams. Fines will be taxed against the President and other absentees.

RUSHING THINGS.—Work on the Oregon Central railroad is being driven ahead with all possible dispatch. The pile-driver at the track below the Boneyard was kept at work Saturday night and all day yesterday—Sunday. There is evidently some reason for haste to get the connection made from the new dock to the Fourth street track.

ARRESTED FOR MURDER.—A man named McCormick was arrested in this city on Saturday and turned over to the Sheriff of Clackamas county, upon the charge of killing Indian "Tom," a few days since, near Oregon City. The two had had a fight, during which the Indian received wounds of which he died shortly after.

BISHOP SCOTT GRAMMAR SCHOOL.—Rev. Burton, who has for a few weeks officiated at Trinity Church, is to be associated with Professor Laing in the Bishop Scott Grammar school as a resident teacher. Mr. Burton is late of Racine (Wisconsin) College.

TO SAIL.—The bark *Goodell* cleared Saturday for Honolulu via San Francisco. She takes 500 bbls. flour for the latter market, and goes to Honolulu for orders, under a charter to load with guano for Boston. She will be towed down the river to-morrow.

FIREMEN'S ELECTION.—At the last regular meeting of Multnomah Engine Company No. 2, Ben. L. Norden was chosen President, vice J. Barrett resigned, and Frank Thompson Secretary, vice Wm. T. Gillihan, resigned.

TRINITY CHURCH.—This building is to be removed to the corner of Fifth and Oak streets, the lot upon which it now stands having been sold to the city for the location of police buildings.

DESERTIONS.—It is reported that there were two desertions from the man-of-war *Saranac* during Saturday night and Sunday morning—one of them, one of the guards, and the other a prisoner.

THE EPISCOPAL CHURCH IN OREGON.—The *Oregon Churchman* has an article on "The History of the Protestant Episcopal Church in Oregon and Washington Territory," from which we take the subjoined extracts: "The first notice we find of Oregon by the Board of Missions, was in the April number of the *Spirit of Missions*, in the year 1850. But it was not until the next year that any definite steps were taken to send a Missionary to this distant field. In April, 1851, the Rev. William Richmond, of the Diocese of New York, was appointed as the first Missionary to Oregon. Quite an enthusiastic meeting was held in the Church of St. Bartholomew, New York, on the eve of his departure to the distant mission. * * * The Rev. Mr. Richmond arrived in Portland on the morning of Sunday, the 11th of May, 1851, but as there was no place provided for worship, he did not officiate until the following Sunday (May 18th,) when, together with the Rev. St. Michael Fackler, he held services in the Methodist house of worship, and baptized the infant daughter of Mr. Fackler. He also presided at the election of wardens and vestrymen, and the organization of Trinity Church. This was the first Episcopal Church organized in the Territory. * * * The year 1851 was spent by the Revs. Messrs. Richmond and Fackler, in ministering at different points, and in organizing parishes. From a letter of Mr. Richmond's to the Board of Missions, June 23d, we learn that they had organized congregations at Portland, Oregon City, and in Marion and Yamhill counties. At what point, in those counties, he does not state. Probably they were at Salem and La Fayette. They also held occasional services at Cathlamet, Milwaukie and Dayton. At Dayton and La Fayette Mr. Richmond spent a large portion of his time, as he had taken up a "claim" in that neighborhood. * * * On the 10th of December we find Messrs. Fackler and Richmond at Milwaukie. They organized a parish, chose two wardens, eight vestrymen, and called the Church St. John's. Mr. Lot Whitcomb, the proprietor of the town, gave the vestry, as trustees until incorporated, two eligible lots, and a building that cost him about $1,000 for an Episcopal Church edifice in Oregon. * * * In the spring of 1852 Mr. Richmond made a visit to the Tualatin Plains, held services at the residence of Mr. Charles Mackey's and baptized seven children. * * * The same year, Mr. Robert Newell gave the Church a small building at Champoeg, in which services were held. In 1861 this little church building was carried down the river during the great flood. As the whole town was washed away, no attempt was made to build a church or hold service there since. The bell was saved, and is now in the Church of the Incarnation at Butteville."

REAL ESTATE BUSINESS.—The Sunday *Bulletin* says: "The real estate business was more active in this city yesterday than for many weeks past. Messrs. Russell, Ferry & Woodward disposed of considerable at public auction, besides negotiating one or two important city sales. Messrs. Parrish, Atkinson & Woodward concluded one negotiation of city property at $5,000, and another at $2,200. Messrs. Stitzel & Upton sold several lots upon Holladay's Addition at ruling figures, and one farm upon the Columbia river at $8,000 cash. This last sale was to a gentleman just arrived from Milwaukee, Wisconsin. Messrs. DeLashmutt, Burch & Metrick, have several fine bargains on their books, and were doing an active business yesterday. Messrs. Conklin, Illsley & Co., had many calls, and a few transactions were closed."

ST. HELENS' HALL SCHOOL.—We have received the annual catalogue of this school, from which we learn that the pupils in attendance during the year ending July, 1871, numbered 179, including three who attended for music lessons only. The next term will commence September 5th, and continue till January 31st, with a vacation from Dec. 23d to Jan. 1st inclusive. The following is the board of teachers: The Right Rev. B. Wistar Morris, Rector; Miss Mary B. Rodney, Principal; Miss Lydia Rodney, Miss Annie Atkinson, Miss Catherine C. H. Burton, Miss Blackler, Miss L. Robson, Assistant Teachers; the Rev. John Rosenberg, B. A. teacher of French; Miss Clementine Rodney, Miss Anna Reed, and Miss Lindsley, teachers of Music; Mr. Edward T. Coleman, teacher of Drawing and painting.

FARM LABORERS WANTED.—C. W. Dean, Esq., of the firm of Dean, Brother & Fisher, real estate dealers, returned yesterday from an extended tour through Clackamas and Marion counties. He reports that farmers are busily engaged in harvesting, but there is a general complaint of scarcity of farm hands. Farmers are offering good pay and are still unable to obtain all the help required.

SUBBEANS FROM CUCUMBERS.—The local reporter of the *Bulletin*, consoles himself and the rest of us, thusly: "It may not be generally known—but such is the fact—that this year Oregon has experienced a drouth. We like it all the better for this. It has proven that grain comes in good even in dry seasons." This fact may be genuine consolation, but if so, it is mighty *thin*.

INCREASED TRADE.—"The best evidence," says the Vancouver *Register*, "of the rapidity with which Clarke county is settling up, is to be found in the increased trade between Vancouver and Portland. A prominent merchant remarked a few days since that he thought a comparison of his books would show an increase of fifty per cent. in the last twelve months."

BOARD OF DELEGATES.—There being no quorum Saturday evening, the Board transacted no business. The following members were present: Messrs. W. H. Wetsell, Secretary; A. G. Walling, P. D. W. Hardenburg, E. D. Backenstos, J. H. Lyon, Thomas Moffett and A. A. Williams. Fines will be taxed against the President and other absentees.

RUSHING THINGS.—Work on the Oregon Central railroad is being driven ahead with all possible dispatch. The pile-driver at the track below the Boneyard was kept at work Saturday night and all day yesterday—Sunday. There is evidently some reason for haste to get the connection made from the new dock to the Fourth street track.

ARRESTED FOR MURDER.—A man named McCormick was arrested in this city on Saturday, and turned over to the Sheriff of Clackamas county, upon the charge of killing Indian "Tom," a few days since, near Oregon City. The two heathen had a fight, during which the Indian heathen received wounds of which he died shortly after.

BISHOP SCOTT GRAMMAR SCHOOL.—Rev. Dr. Burton, who has for a few weeks officiated at Trinity Church, is to be associated with Professor Laing in the Bishop Scott Grammar school, as a resident teacher. Mr. Burton is late of the Racine (Wisconsin) College.

TO SAIL.—The bark *Goodell* cleared Saturday for Honolulu via San Francisco. She takes out 500 bbls. flour for the latter market, and goes to Honolulu for orders, under a charter to load with guano for Boston. She will be towed down the river to-morrow.

FIREMEN'S ELECTION.—At the last regular meeting of Multnomah Engine Company No. 2, Hon. L. Norden was chosen President, vice John Barrett resigned, and Frank Thompson Secretary, vice Wm. T. Gillihan, resigned.

TRINITY CHURCH.—This building is to be removed to the corner of Fifth and Oak streets, the lot upon which it now stands having been sold to the city for the location of police buildings.

DESERTIONS.—It is reported that there were two desertions from the man-of-war *Saranac* during Saturday night and Sunday morning—one of them, one of the guards, and the other a prisoner.

NEW WHEAT.—The first new wheat of the season was purchased in this city on Saturday by Everding & Farrell. It was raised on the farm of Mr. Marston, of Tualatin Plains.

PERSONAL.—Among the arrivals by the *John L. Stephens* yesterday was Geo. P. Rowell, head of the great advertising agency of Geo. P. Rowell & Co., of New York.

SALE OF LOTS AT AUCTION.—At his sale of real estate on Saturday, Mr. Richardson sold lots 3 and 4 in block 140, city, for $2,300.

THE HERO OF THE KEARSARGE.

ARRIVAL OF THE U. S. WAR SHIP "SARANAC," FLAG-SHIP OF THE PACIFIC SQUADRON—ADMIRAL JOHN A. WINSLOW, FORMERLY CAPTAIN OF THE "KEARSARGE"—THE SHIP'S COMMAND AND ARMAMENT—MEMORANDA OF CRUISE—REMINISCENCE OF THE LATE REBELLION.

The U. S. man-of-war *Saranac*, Captain James H. Spott, commanding, with Admiral Winslow, commanding the Pacific Squadron, arrived at this port at twenty minutes past three o'clock Saturday afternoon. The arrival of this ship had not been expected, and her advent here created quite a stir among those who had curiosity to be gratified. It becoming known that Admiral Winslow, the hero of the *Kearsarge-Alabama* fight, was on board, curiosity and interest were redoubled, and during the afternoon of Saturday and all day yesterday great numbers went on board to see the man who brought Semmes and his piratical craft to grief, or for the first time, to many, to take a look through a veritable war ship.

THE ADMIRAL.

Admiral Winslow is an unassuming sort of gentleman, apparently about 55 or 60 years old, of rather full habit, hair rather thin and quite gray; not a handsome or a lion-looking man by any means, but a man whom a reader of human nature would at once select as a man of courage and "game." He strikes us much as General Thomas did—with a sort of undefinable wonder that he should be a man to so fill the eye and the ear of the nation. He has very little of the *style* which most always distinguishes the younger and subordinate officer, and in this regard he is precisely such a man as General Thomas. His dress yesterday was a simple undress of linen, and that, together with his quiet manner, would have commended him to a stranger as altogether an unimportant personage on board ship, but nevertheless a very comfortable and contented individual.

THE SHIP.

The *Saranac* is a wooden vessel, built in 1849—a sidewheel steamer of 1,238 tons, and 600-horse-power engines. She was built at the Brooklyn Navy Yard, but has been now several years on this coast. We believe she was not engaged in any of the battles of the late war—at all events, not in any important ones. She carries thirteen guns—six on each side and a swivel gun on her forward deck—and 225 marines and sailors. Though an old ship, she seems to be in an excellent state of preservation, and everything, from water-line to topmast, looks tidy and ship shape. She is just now on her return from a cruise to Sitka, of which the following is her

MEMORANDA.

United States flag ship *Saranac* left San Francisco May 22. Stopped at Drake's bay and had target practice; from there to Port Townsend, Port Madison, Steilacoom, Seattle and Bellingham bay. Took the inside passage to Sitka; arrived in Sitka, coaled ship, and left July 17, touching at various stations of the Hudson Bay Company, and arrived at Esquimalt, Vancouver Island, July 24. Sailed August 2 from Esquimalt for Port Townsend; arrived at Port Townsend at noon on the 2d. Sailed from Port Townsend on August 4, and made for Portland, touching at Astoria for a river pilot; arrived at Portland August 5, at 8:20 P. M.

THE SHIP'S COMMAND.

The following is the roster of officers:

Rear Admiral John A. Winslow, commanding Pacific Fleet.

Staff—Lieutenant Commander Henry Glass, Acting Chief of Staff; Secretary, Chilton R. Winslow; Clerk, F. H. Dee.

Captain James H. Spotts, commanding.

Lieutenant Commander Frederick Rodgers, Executive Officer.

Lieutenant Commander Francis A. Cook, Navigating Officer.

Watch Officers—Lieutenant Commander Joshua Bishop, Lieutenant R. M. Cutts.

Masters—Percy Garst, A. H. Parsons.

Paymaster—F. C. Crosby.

P. A. Surgeon—F. A. Shaw.

Assistant Surgeon—W. M. Nickerson.

First Assistant Engineer—W. H. G. West.

Second Assistant Engineers—Harrison Spear, J. H. Diamond and J. Q. A. Ford.

Pilot—William E. George.

Captain of Marines—P. C. Pope.

Boatswain—James Nash.

Gunner—William Cheney.

Carpenter—D. W. Perry.

Sailmaker—Joseph Wilson.

Captain's Clerk—G. Virginius Haileston.

DESTINATION.

The *Saranac* is bound for San Francisco and Mare Island, California, and upon her arrival will probably be laid up, as the Admiral will transfer his flag to the new and much larger ship *California*. It was understood yesterday that she would go down the river this morning, as in the falling stage of the river, the depth of water is too doubtful for a vessel of her draught—17 feet.

INTERCHANGE OF OFFICIAL COURTESIES.

Yesterday afternoon General E. S. Canby, commanding the Department of the Columbia, and most of the military officers at Headquarters, dined with the Admiral on board. Quite a number of the ship's officers were on shore Saturday and last evening, enjoying the hospitalities of army officers and citizens.

In this connection, the account of the naval fight June 19, 1864, between the *Kearsarge*, Capt. Winslow, and the rebel pirate *Alabama*, commanded by the notorious Semmes, in which Admiral Winslow won the greatest distinction of his life, will be most interesting.

REMINISCENCE OF THE WAR—THE BATTLE BETWEEN THE KEARSARGE AND ALABAMA.

Early in June the *Alabama*, after a prosperous career among the American merchantmen in the Southern Atlantic and Indian Oceans, returned to northern waters and put into Cherbourg. The *Kearsarge*, Captain John A. Winslow, then lying at Flushing, immediately sailed for Cherbourg to watch the movements of the *Alabama*; and on June 15th her commander received a note from Captain Semmes of the privateer, announcing his intention to fight the *Kearsarge*, and begging Captain Winslow not to depart until the two vessels could have an opportunity to measure their strength. As this was precisely what the Federal commander desired, he willingly awaited the movements of his adversary. The relative proportions and armaments of the two antagonists were as follows:

	Alabama.	Kearsarge.
Length over all	220 feet	214½ feet.
Length on water line	210 "	198½ "
Beam	32 "	33 "
Depth	17 "	16 "
Horse-power, two engines of	300 each	400 h. power
Tonnage	1,160	1,030

Armament of the *Alabama*.—One 7-inch Blakely rifle; one 8-inch smooth-bore 68-pounder; six 32-pounders.

Armament of the *Kearsarge*.—Two 11-inch smooth-bore guns; one 30-pounder rifle; four 32-pounders.

The *Kearsarge* had twenty-two officers and one hundred and forty men, and the *Alabama*, so far as can be ascertained, about one hundred and forty officers and men, the greater part of the ship's company consisting of British subjects. Her gunners were trained artillerists from the British practice ship *Excellent*. Availing himself of an ingenious expedient for the protection of his machinery, first adopted by Admiral Farragut in running past the rebel forts on the Mississippi in 1862, Captain Winslow had hung all his spare anchor cable over the midship section of the *Kearsarge* on either side; and in order to make the addition less unsightly, the chains were boxed over with inch deal boards, forming a sort of case, which stood out at right angles to the side of the vessel.

At twenty minutes past ten on Sunday morning, June 19th, the *Alabama* was seen standing out from Cherbourg harbor, accompanied by the French ironclad *Couronne*, and followed by the steam yacht *Deerhound*, whose owner, an Englishman named Lancaster, was on board with his family, ostensibly to witness the engagement, but really, as it subsequently appeared, to act as a tender to the *Alabama*. Upon seeing the *Alabama* approach, Captain Winslow kept out to sea a few miles, in order "that the positions of the ship should be so far off shore that no questions could be advanced about the line of jurisdiction." Upon reaching a point about seven miles from the land the *Kearsarge* put about and steered directly for the *Alabama*, which first opened fire at a range of about a mile. The following account of the fight that ensued is given by Captain Winslow:

Immediately I ordered more speed; but in two minutes the *Alabama* had again loaded and fired another broadside, and following it with a third, without damaging us except in rigging. We had arrived within nine hundred yards of her, and I was apprehensive that another broadside, nearly raking as it was, would prove disastrous. I accordingly ordered the *Kearsarge* sheered, and opened on the *Alabama*.

The positions of the vessels were now broadside to broadside, but it was soon apparent that Captain Semmes did not seek close action. I became then fearful lest, after some fighting, that he would again make for the shore. To defeat this I determined to keep full speed on, and with a port helm to run under the stern of the *Alabama*, and rake, if he did not prevent it by sheering and keeping his broadside to us. He adopted this mode as a preventive, and, as a consequence, the *Alabama* was forced, with a full head of steam, into a circular track during the engagement.

The effect of this maneuver was such that, at the last of the action, when the *Alabama* would have made off, she was near five miles from the shore; and had the action continued from the first in parallel lines, with her head in shore, the line of jurisdiction would no doubt have been reached.

The firing of the *Alabama* from the first was rapid and wild; toward the close of the action her firing became better. Our men, who had been cautioned against rapid firing without direct aim, were much more deliberate; and the instructions given to point the heavy guns below rather than above the water line, and clear the deck with the lighter ones, were fully observed. I had endeavored with a port helm to close in with the *Alabama*; but it was not until just before the close of the action that we were in a position to use grape; this was avoided, however, by her surrender. The effect of the training of our men was evident; nearly every shot from our guns was telling fearfully on the *Alabama*, and on the seventh rotation on the circular track she winded, setting fore trysail and two jibs, with head in shore.

Her speed was now retarded, and by winding her port broadside was presented to us with only two guns bearing, not having been able, as I learned afterward, to shift over but one. I saw now that she was at our mercy, and a few more guns well directed brought down her flag. I was unable to ascertain whether they had been hauled down or shot away, but a white flag having been displayed over her stern, followed by two guns fired to leeward, our fire was reserved. Two minutes had not more than elapsed before she again opened on us with the two guns on the port side. This drew our fire again, and the *Kearsarge* was immediately steamed ahead and lay across her bows for raking.

The white flag was still flying, and our fire was again reserved. Shortly after this her boats were seen to be lowering, and an officer in one of them came alongside and informed us the ship had surrendered and was fast sinking. In twenty minutes from this time the *Alabama* went down, her mainmast, which had received a shot, breaking near the head as she sank, and her bow rising high out of the water as her stern rapidly settled. The fire of the *Alabama*, although it is stated she discharged three hundred and seventy or more shell and shot, was not of serious damage to the *Kearsarge*. Some thirteen or fourteen of these had taken effect in and about the hull, and sixteen or seventeen about the waist and rigging.

The boats of the *Kearsarge* were at once sent to receive the officers and crew of the *Alabama*, but so rapidly did she go down that it was impossible to save them all without assistance. Captain Winslow accordingly requested the *Deerhound*, which had meanwhile come alongside, to assist in the rescue of his prisoners. The crew of the privateer were by this time struggling for their lives in the water, and many of the wounded men went down. In the confusion of the moment the *Deerhound*, after picking up forty-one persons, including Semmes, who was wounded, steamed off toward the English coast, and when observed had got too much the start to be overhauled. The total number brought on board the *Kearsarge* was sixty-nine, of whom seventeen were wounded; and twelve were picked up and carried into Cherbourg by two French pilot boats. Several of the wounded died soon after, and the total number of officers and men belonging to the *Alabama* who were landed in France or England, amounted to one hundred and fifteen. The casualties of the *Kearsarge* amounted to only three wounded. This most remarkable sea fight between single ships that has occurred within the century was witnessed by thousands of spectators on the French shore, and the result produced a profound impression in Europe and America.

Can be had. Another advantage this Property will have for Residences: no high water will ever affect the drainage of the city.

The Oregon and California Railroad Company's New Ferry Boat is now making Regular Trips from the Foot of F street, Couch's Addition, to the Foot of Oregon street, Holladay's Addition.

IMPROVEMENTS TO BE MADE:

Aside from gigantic Improvements now in contemplation by the Railroad Company, in the construction of Wharves, Warehouses and Machine Shops, quite a number of citizens will commence erecting fine Residences and Business Houses; also, Street improvements, under contract, by grading and planking Holladay Avenue its entire length, to connect with the Sandy Road. We can say that at least a Half Million Dollars will be expended in Permanent Improvements on this Addition the present season.

TERMS OF SALE—40 per cent. CASH down; deferred payments, six and twelve months, with interest at the rate of 10 per cent. per annum.

NO QUESTION AS TO TITLE

The Title to this property is undisputed, being a portion of the Donation Land Claim of Jacob Wheeler and wife. United States Patent issued and conveyed by said Wheeler and Wife to Geo. W. Weidler.

Parties desiring to invest will find Maps and Plats of the property at our Office, or at the Office of Messrs. FERRY, RUSSELL & WOODWARD, and other LAND AGENCIES in the city.

NEWSPAPERARCHIVE®

Silver in the Sea.

We take the following from the Boston *Journal of Chemistry*:—The poet tells of the gems that shine with purest ray serene in dark, unfathomed caves of the ocean; but it is not in these inaccessible depths alone that the treasure of the sea is hidden. There is untold wealth diffused throughout the immensity of its waters, as secure from human avarice as if it were in the abysses which plummet never sounded. Its very diffusion puts it out of our reach. The fact that it is everywhere makes it practically nowhere. Some years ago, certain French chemists demonstrated that sea water contains an appreciable amount of silver. They decided that, if it is equally distributed, there must be at least two million of tons of the precious metal in the whole ocean; or more than has ever been dug from the earth. And experiments made at widely distant points prove that the metal is thus uniformly diffused. The water of the Pacific on the coast of Chili, as analyzed by an English chemist, gives the same result as the Frenchman had obtained from the waters of the British Channel.

The silver in the sea is only one of a thousand illustrations of solid substances made invisible by chemical processes. And we must not suppose that it is only minute quantities of matter that can be thus lost to sight in transparent liquid. A silver half dollar (a mythical piece of money to our young readers, but the old folks can tell them how large it was or is) can be dissolved in a very small amount of nitric acid, which, if pure, is a colorless liquid. Coin soon vanishes, and the liquid is as clear and transparent as ever. Many dollars worth of silver might thus be concealed in a gallon of what would seem nothing but water. Other metals, and, indeed, solid substances of all kinds, may be dissolved and made to disappear in a similar manner. There is no visible form of matter which chemical agencies may not render invisible. What we commonly call the destruction of matter is merely this metamorphosis from the seen to the unseen. When wood or anything else is burned, it has simply undergone a chemical change which removes it from our sight. Not a particle of matter can be really destroyed, unless by the Power that called it into existence. The silver in our transparent liquid is not annihilated if we pour it into the sea; it is lost to us, but the silver is there, like the millions of tons of kindred metal that were [illegible] mingled with the waters. In like manner the coal and wood we burn, except the small residuum of ashes, have become invisible gas, and are blended with the aerial ocean of the atmosphere. On the clearest day, the air above us is laden with thousands of tons of carbon in this transparent condition. It is there, though we cannot see it, and plants are continually turning it back into visible form again. This is the key to the mystery of their growth, which is mainly the withdrawing of carbon from its gaseous state of carbonic acid, and making it a part of their own structures.

We have said that the silver in the sea is useless, because it is diffused through so vast a bulk of fluid. But the fact that it has been possible to detect it when thus diffused, shows that if chemical agencies can make solid substances vanish from our sight, they can, on the other hand, compel a body thus concealed to show itself, even when it forms only the minutest proportion of the mixture. The delicacy of chemical tests is almost beyond belief. A single drop of colorless liquid, added to a gallon of colorless liquid, may instantly change the whole to a well-defined red, or blue, or yellow throughout the entire mass of the latter; and yet it may be less than a hundredth part of a grain of some solid substance in solution, that is made to give such unmistakable evidence of its presence.

The Tammany Thieves.

[From the New York Times, July 27.]

Mayor Hall and his friends have great faith in the theory that all the charges made against them will "blow over." Hall goes about assuring everybody who will listen to him that he is not afraid to newspaper attacks, and trying to make out that when he is charged with being a party to the embezzlement of the public money, it is all political partnership which means nothing. There are few innocent men who could sit down and see themselves posted as thieves. Such, however, is the beautiful disposition of Hall and Connolly that they do not mind being called thieves because they know that the charge is true, and the less they say about it the better. They have signed warrants for millions of money under false pretenses, and we can prove that they have done so before any court of justice. We challenge Hall and Connolly to give us the opportunity if they dare. The *Express* says it is very hard to call a man a thief. But it does not seem to think it wrong for a man to be a thief. Will the *Express* give us its candid opinion about the figures we published on the 8th and 20th instant, instead of sitting down in a corner like an old woman, whining out, "Pray, gentlemen, don't use such dreadful language?" Will it undertake to show that we have wrongfully accused Hall and Connolly? If so, let us hear it—if not, let it keep out of the fight.

Both Hall and Connolly knew that it was absurd to sign a warrant for $431,064, in favor of George S. Miller for carpenter work done in ten lofts and stables in the course of nine months. They knew that "Ingersoll & Co." were not entitled to $170,729 60 for chairs supplied to the armories. They knew that the plastering had not cost $193,330. But they drew the warrants for these amounts, and divided the money among each other. We have, however, not yet begun to tell the story. What will the public think when they see that Ingersoll has received nearly $5,000,000 in two years for furniture supplied the new court house? He is put down in the Controller's accounts as having received that sum, but of course only a small fraction of it actually passed into his hands. The system is this: A man does some work for the city authorities and charges $5,000 for it. When he presents his bill, one of Connolly's agents says to him, "We can't pay this, but make the amount $55,000 and you shall have your money at once." A warrant is drawn for $55,000, and endorsed by the presentor of the bill over to J. H. Ingersoll. He then receives five $1,000 bills, and the Ring pockets the $50,000. That this is done every day, and done on a scale which will startle the most listless and indifferent, we shall prove beyond all doubt before we have completed our extracts from Connolly's books.

The *city* accounts are guarded, as one may say, with fixed bayonets. They would reveal frauds on a scale exceeding even those which were carried on in the county accounts, before the two were amalgamated. Connolly actually gets armed men to watch his books now, and he trusts to W. B. Astor, Moses Taylor and Marshall O. Roberts to give him "a clean bill of health" whenever he requires it. We call the attention of country Democratic papers, which have been asking for undeniable *proof* of the dishonesty of the Tammany leaders, to the figures we have already published on the 8th and 20th instant. Let them also look out for our next revelation. If any manager of a mercantile house acted as Hall and Connolly have done, he would undoubtedly end his days in Sing Sing. We do not despair of seeing Connolly and Hall yet receiving the same measure of justice.

A Spartan Remedy.—Whenever Burke found himself indisposed, he ordered a kettle of hot water to be kept boiling, of which he drank large quantities, sometimes so much as four or even five quarts in a morning, without any mixture or infusion, and as hot as he could bear. His manner was to pour about a pint at a time into a basin, and to drink it with a spoon as if it had been soup.

Warm water, he said, would relax and nauseate, but hot water was the finest stimulant and most powerful restorative in the world. He certainly thought it a sovereign cure for every complaint, and not only took it himself, but prescribed it, with the confidence of a Sagrado, to every patient that came in his way.

The Navy Department is soliciting plans and contracts for the construction of a mammoth iron dock for use in repairing vessels in our various stations. It is to be of sufficient strength and size to raise an iron-clad vessel 350 feet long, 65 feet wide, and 6,000 tons displacement.

FINANCE AND COMMERCE.

SATURDAY EVENING, August 5, 1871.

Gold in New York 112; currency, buying, 89½; selling 90; exchange remains the same as yesterday's quotations.

U. S. steamer *Saranac* arrived this evening from the northwest coast. Bark *Goodell* cleared to-day for Honolulu, via San Francisco; she sails on Monday.

A. B. Richardson & Co. sold at auction to-day lots 3 and 4, in block 140, for $2,300.

In our table of receipts of importations of Hawaiian sugar into San Francisco, for the first six months of this year, we gave it at 10,113,785 lbs; it should have been 7,413,785 lbs, the mistake arose from the fact that the bark *Comet's* cargo was entered at 3,000,000 lbs, and it should have only been 300,000 lbs. The total imports of all kinds of sugar for the first six months of this year was only 29,032,531.

We have received information that three of the flouring mills have made extensive improvements. The Commercial Mill has increased its capacity 30 bbls per day. The Imperial has been thoroughly overhauled, making it virtually a new mill; the improvements added are of the latest patent; this mill will manufacture flour suitable for the China trade, as well as first quality extra. The mill at Jefferson has been overhauled and improvements added, but particulars not given. The Standard Mill has been thoroughly overhauled and preparatory to running. The quantity of flour that will be made this year will be greater than ever before; we cannot give the estimate in this issue.

The great overproduction of three years ago and the large supply of wool, made goods so cheap that the manufacture of them has been curtailed until the abundance was off the market, which now being the case, prices are advancing. The same state of affairs exists in Europe as here, and the market there is advancing. We learn that in all styles of English goods there has been a very marked advance, as also a great scarcity of goods. For instance, the advance in Alpacas has been at least 25 per cent. higher than three months ago, while an advance almost as great is perceivable in all styles and qualities of goods—velveteens and velvets being very high. The changes in foreign goods in New York have not kept pace with the rise in England, owing to large stocks on hand, but prices there must follow the advance in England. To give an idea of the kinds of goods imported, we append a table of the different kinds for the last three years, ending with June of each year:

	1868-9.	1869-70.	1870-71.
Manuf's of wool	$28,406,794	$28,200,004	$37,596,727
do of cotton	16,809,292	18,427,644	24,430,062
do of silk	24,714,7[illegible]5	25,428,C95	35,836,182
do of flax	14,836,232	14,643,453	10,781,367
Miscell's dry goods	7,640,899	9,867,805	11,478,322
	$92,409,842	$96,414,270	$120,120,210

The rise in cotton and woolen goods of home manufacture, in the United States, has been within the month of July very marked. We give in our merchandise report the latest New York prices of prints, received by mail. This advance in the San Francisco and in this market has not kept pace with the advance East; one cause probably is the season is over, and by not advancing prices too much might induce buyers to purchase so that importers will not have large stocks to carry over.

The remarkable success of the French Government in placing its loan on the market and having the same taken up within twenty-four hours, naturally excited leading financiers on this side as to the cause of its wonderful success, but we have had to wait the slow process of the mail to gain the desired information. The amount of the loan asked for was 2,000,000,000 francs ($400,000,000). The loan was issued at 82 francs (50c.), payable 12 francs in cash at date of subscription, the balance in sixteen monthly instalments, commencing the 21st of this month and terminating November 21st, 1872, with a discount of 6 per cent. for cash in advance. In a financial point of view the terms of the loan offered large inducements for investing, but this not unless so, than should have been, when we take into consideration the fact that France had just emerged from a sanguinary foreign war, fought upon her own soil, where of necessity more or less destruction of property occurred, followed by a civil contest for the possession of Paris, where a reward of vandalism, for a civilized nation, was committed. One of the great secrets of its success, with foreign capitalists, is to be found in the well known characteristics of the French people, that they will pay their national debts, no difference under what dynasty incurred. To the French people patriotic appeals were made, the principal one being that as soon as the German indemnity was paid then Germany would withdraw her army of occupation from French soil. This had the desired effect, for the French peasants responded largely, to the surprise of foreign capitalists, who supposed the people virtually bankrupt; forgetting that there is no other country in the world where capital is more equally diffused and more carefully retained than in France. This characteristic has probably been forced upon the people as a necessary consequence of numerous foreign and domestic wars in which France is involved. Everybody is compelled to lay up something for the future, in which so many rapid and startling changes occur. In the history of the French loan we read the cause of the failure of Secretary Boutwell's Funding Bill. The difference between the two loans is in marked contrast. While the French loan offered great inducement, the United States loan offers none whatever. Secretary Boutwell wishes to place the United States bonds at par, and as there is no inducement in the aspect of their rising to a premium, on that score there is no inducement. Then again the bonds must be paid for cash down, whereas the French loan is distributed over a period of sixteen months, requiring as first payment 12 francs ($2.40) cash down, and the balance in payments of 4 francs (84c.) a month. It is true we offer the alternative of taking outstanding five-twenties in exchange, but in this there is no advantage, rather a disadvantage, as five-twenties bear 6 per cent. interest and the new loan from 4 to 5 per cent. The French loan was issued at 5 per cent. interest, with a discount of 82 francs (50c) for cash down, which increased it to 6¼ per cent., and then there was the chance of making the difference between the discount sold at and the par value of the bonds. The credit and standing of the two countries are very different. France has just emerged from a ruinous war, with a doubtful future at the time the loan was negotiated—the telegraph now gives more encouragement for the future. While our country is peaceful at home and powerful abroad, was never stronger than at present. The result of the French loan demonstrates that loans presenting even inferior securities, but giving a range for large profits, is given the preference in the financial marts of the world.

Medical.

Portland Private Hospital & Medical Dispensary.

THIS INSTITUTION IS DEVOTED TO THE treatment and cure of all old Chronic and Private Diseases of every grade and character. All Medicines prepared and furnished by the Doctor himself. No mercurial preparations of any kind used either *internally* or *externally*. An experience of twenty-two years enables me to permanently cure many of the so called incurable diseases with which the human family suffers. Any and all complaints can be cured on application to this Institution that can be cured in the larger cities of the United States. Of this fact I have proof to present for investigation. Many old complaints in and around Portland are already cured, which the afflicted can have for reference, excepting Private cases, which, in no case will be given. It matters not how much medicine you have taken, how long you have been treated or by whom. Call and investigate. Truth proved no one can doubt; without proof no one is bound to believe.

Office consultations FREE OF CHARGE.

Cases treated by letter. Medicines packed and sent to any address.

To the Ladies.

You who are suffering a life of misery which makes existence a burden, whether married or single, can in nearly every instance be cured in a short period of time, thus becoming healthy and free from pain, weakness, debility and disease, which, like the canker worm, slowly but surely destroys vitality. Chill Fever cured at once without the use of poisonous medicines of any kind. All consultations, examinations, letters and communications strictly confidential. Dispensary on Front street, opposite Vaughn's Mill Portland, Oregon.

my0dawtf J. N. CUNNINGHAM, M. D.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary.

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies, see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his specialty for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to the whole afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of the charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin in registered letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Sects and Creeds differ, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of those blessings, but among them all, in the province to which it belongs, no greater than

TARRANT'S EFFERVESCENT SELTZER APERIENT

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admiral remedy for all bilious complaints. Let there be no mistake. Secure the genuine article only.

MARSHAL'S CITATION.—UNITED STATES OF America, District of Oregon—Whereas, a libel hath been filed in the District Court of the United States of America, for the District of Oregon, on the 31st day of July, 1871, by E. A. Cronin, Esq., Proctor, in behalf of Isaac Thomas and against the steamboat "Webfoot No. 2," and praying the usual process and monition of the Court, that all persons interested in the said vessel, her tackle, apparel and furniture, may be cited to answer the premises, and all due proceedings being had, that the same may be decreed to be sold, and the proceeds thereof to be distributed according to law: Therefore, in pursuance of the said monition under the seal of the said Court, to me directed and delivered, I do hereby give notice generally, unto all persons having, or pretending to have any right, title or interest therein, to appear before the aforesaid Court, at the city of Portland, on the 4th day of September, A. D. 1871, if it be a court day, or else on the next court day thereafter, at 10 o'clock in the forenoon, then and there to answer the said libel and to make their allegation in that behalf.

Dated at Portland, in said District, the 2d day of August, A. D. 1871. THOMAS G. YOUNG,

E. A. CRONIN, Proctor. United States Marshal.
